U.S. AIR FORCE

MEMORANDUM FOR ALL YOKOTA AIR BASE PERSONNEL

MAR 04 2008

FROM: 374 AW/CC

SUBJECT: Restricted Hours Policy for "Bar Row" and Other Bars in Fussa City

1. As the installation commander, I am responsible for the safety and well-being of Yokota Airmen and their families. In recent years, Airmen visiting an area known as "Bar Row" and "Bar Road," as well as several other establishments in Fussa City, have become involved in numerous fights and altercations. These typically occur during the early morning hours after midnight. I find the risk associated with frequenting these establishments during this time period unacceptable, and issue the following lawful order:

All Yokota Air Base military personnel, SOFA status dependents, DOD civilians, and DOD-invited contractors are prohibited from entering in, remaining at, or being within one block of "Bar Row," otherwise known as "Akasen-dori" (near Honcho-dori and Fujimi-dori between Yokota Air Base and the Fussa Train Station) between the hours of 0100 and 0600. This prohibition also specifically applies to entering in, remaining at or being within 100 feet of the following establishments: Barracks Disco & Bar, BeBe's Sexy Bar, Disco Latin America, Boom Boom, Club Kings, Bonita, Mini Kamayan, Borderless, Joker Bar, Baywalk, Crunk, Eddies, La Boom, Hang Out, Diversion Ladies Bar, and Night in Corazon. A map of the area and list of addresses of the establishments has been attached for your reference. A change in ownership, management, or name to any of the establishments listed above does not change the effect of this restriction.

2. Violations of this order will result in discipline under applicable regulations and may result in punitive action to violators.

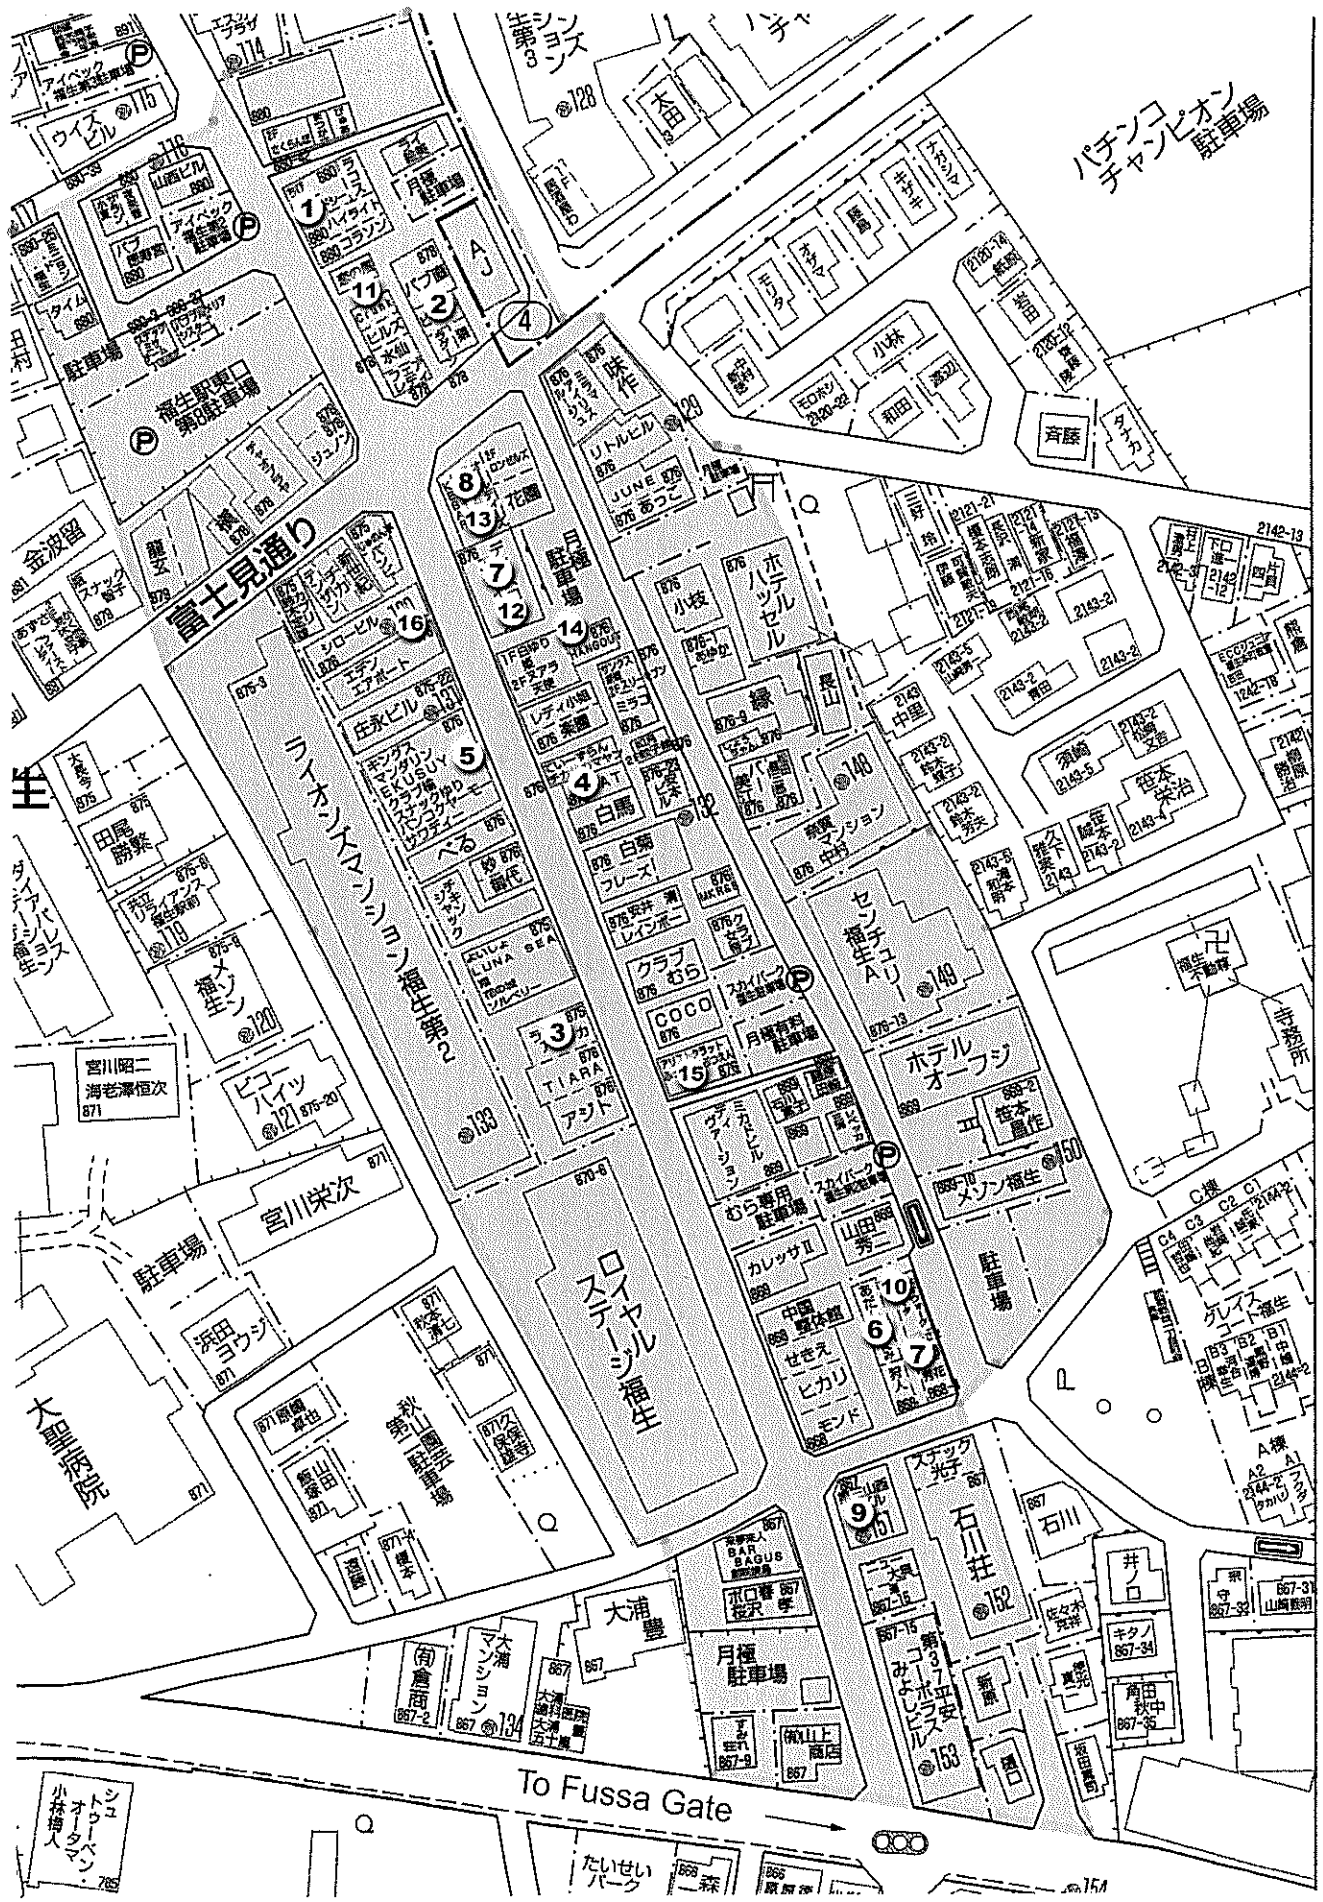

3. This restriction is designed to maintain our strong relationship with the local community, maintain mission readiness, enhance force protection, and ensure the safety and well-being of our Yokota family. This policy remains in effect until rescinded.

JOHN F. NEWELL III, Col, USAF
Commander
374th Airlift Wing
